

Problem-Solution Fit

FitBuddy – AI Fitness Plan Generator using Gemini Models

Problem

Creating a structured workout routine can require planning and adjustment.

Users have different goals and preferred intensities.

A fixed plan may need changes after user feedback.

Target Users

Individuals seeking a structured fitness routine.

Coaches or administrators reviewing stored plans.

FitBuddy Solution

Generates a personalized 7-day workout plan, adds nutrition/recovery guidance, and supports feedback-based updates.

Connects frontend, FastAPI, Gemini AI and SQLite persistence.

Solution Fit

The proposed features directly address the stated need for personalization, guidance and plan refinement.
